Notable features:

All have cast iron lintels of similar design, which suggests a single builder. An important terrace of matched houses, shallow gable roofs. Numbers 1052-1056, 1060 and 1064 have original doorway treatment; cornice may have been added to 1056, 1058, 1060 and 1064. Number 1060 has good iron work. Most have cellar windows and/or coal doors.

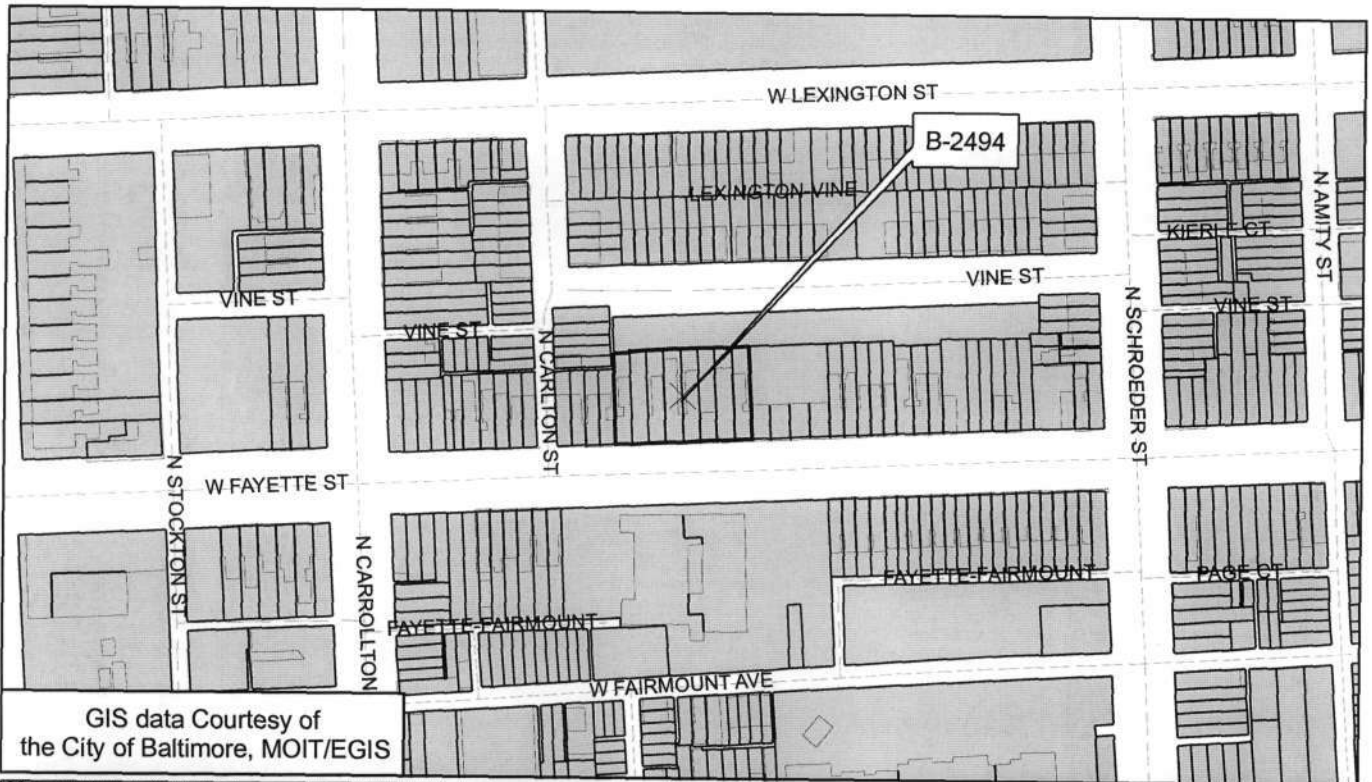

This terrace should be rehabilitated and considered for protection as an historical landmark. The cornice at 1060 is late (c. 1870's) design and appears to have been added to a gable house.

Environmental context:

Opposite church and good terrace. Vacant lot at 1062. Excellent scale and proportion; buildings step up with the street; needs street trees.
